HYDT Protocol Affiliate Program

Build permanent income stream with HYDT Protocol's Affiliate Program

Market

Crypto world is looking
for next high yield
Stablecoin staking
Project.

After Terra(Luna)'s collapse, Crypto world has not yet discovered Next Stablecoin High Yield Staking Powerhouse. But it will soon be over! **HYDT Protocol** is ready to provide stable high return for users, and also for Promoters!

HYDT Protocol Overview

What is HYDT Protocol?

HYDT Protocol is High yield Stablecoin Staking platform on BNB chain, offering fixed 30% APY + additional governance token farming reward to users.

 \$HYDT is HYDT Protocol's Stablecoin, it can be staked for earning high yield on platform. It is backed by BNB collateral, and pegged to USD automatically by Smart contract.

 \$HYGT is Protocol's Governance token, being distributed as additional reward to HYDT Protocol users. Token buy-back and DAO is planned to be launched within 2024.

Security Audit

Cyberscope

Exchange Listing

BitMart

PancakeSwap

HYDT Stablecoin Staking Advantages

HYDT Protocol's staking feature is one of the most attractive in the entire crypto industry.

30% Guaranteed APY

Base \$HYDT APY is fixed, secure high APY even under bad Market conditions

\$HYGT Governance Token Reward

User gains much higher APY thanks to HYGT additional reward

\$BNB Collateral

\$HYDT Stablecoin is backed by BNB collateral

Sustainable High Yield

Unique Peg mechanism, Long-term oriented staking function, all built to survive the volatile Crypto market

HYDT Stablecoin Peg Mechanism

When HYDT Stablecoin is above Peg Range

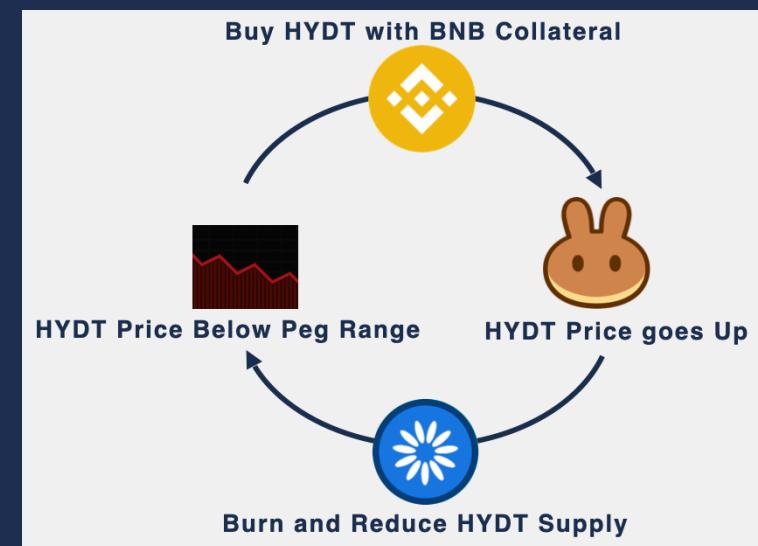

If \$HYDT Stablecoin price is more than 1.02 USDT on Pancakeswap Exchange, Smart contract automatically mints HYDT and sell it on Pancakeswap for BNB, results in lower exchange rate of \$HYDT.

BNB is transferred to Reserve address, adding more BNB to Protocol's collateral.

When HYDT Stablecoin is below Peg Range

If \$HYDT Stablecoin price is less than 0.98 USDT on Pancakeswap Exchange, Smart contract automatically buys HYDT using BNB collateral and burn HYDT, results in higher exchange rate of \$HYDT.

As the Smart contract burns \$HYDT, circulating HYDT amount is reduced to keep HYDT price close to 1 USD.

HYDT Stablecoin Staking Yield Overview

One-time Staking ROI

Unlike other Stablecoin staking projects, HYDT Protocol pays out principal and yield at the same time.

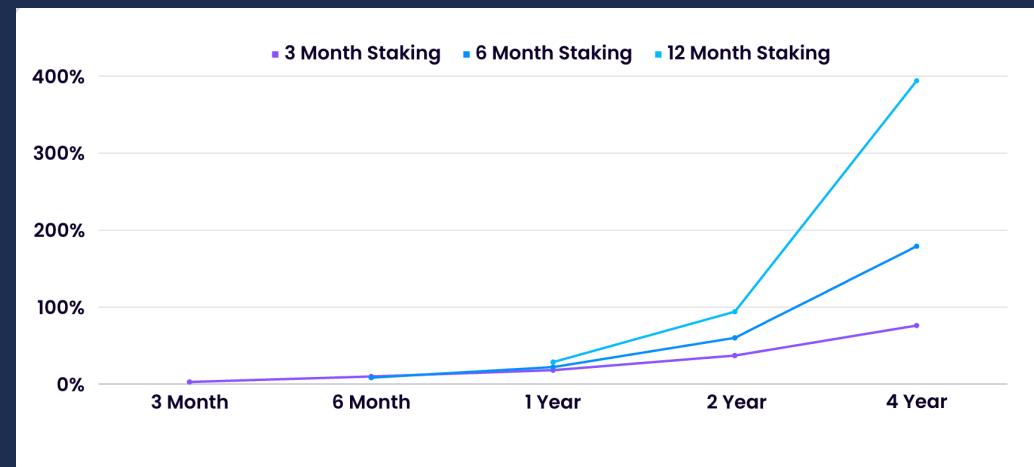

One-time staking ROI is base APY user will receive and does not include additional HYGT reward.

1. 104% payout in 90 days (1.156% daily), 16% APY
2. 110% payout in 180 days (0.611% daily), 20% APY
3. 130% payout in 365 days (0.356% daily), 30% APY

Compounding Return

Compounding Return is what user can expect to receive by Restaking HYDT payouts every month.

By frequently Restaking payouts, user will earn much more than one-time staking. This graph does not includes additional HYGT reward.

HYDT Protocol Affiliate Program

High Stablecoin Staking Yield for Users,
High Commission Rate for Promoters, Up
to 5 level deep!

Promoter's annual earning from referral's
Stablecoin Staking

12-13.5% from Direct Referrals
1.5-3.5% from Indirect Referrals

HYDT Protocol Affiliate Advantages

Commission shows up instantly on your Affiliate Panel

Check history to see latest earning transactions

Request withdrawal, Commission is available for claim in 72 hours

Opt in longer period vesting to get more \$HYGT additional reward

Commission Rate Overview

One-time Staking Commission Rate

One-time commission rate is 2-4% for direct referrals, 0.25-1% for indirect referrals.

You will earn much more than this rate by encouraging your referrals to Restake their earning from HYDT Staking.

One-time Staking	Level 1(Direct)	Level 2	Level 3	Level 4	Level 5
12 Month Staking	4 %	1 %	1 %	0.5 %	0.5 %
6 Month Staking	3 %	0.75 %	0.75 %	0.375%	0.375%
3 Month Staking	2 %	0.5 %	0.5 %	0.25%	0.25%

Expected Annual Commission Rate

Expected annual commission rate is calculated to show the practical earning rate for promoters. Direct referrals will allow you to earn 12-13% of their stakes per year if they Restake the HYDT payout every month.

Monthly Restaking	Level 1(Direct)	Level 2	Level 3	Level 4	Level 5
12 Month Staking	12.2 %	3.05 %	3.05 %	1.53 %	1.53 %
6 Month Staking	13.4 %	3.35 %	3.35 %	1.68%	1.68%
3 Month Staking	13.6 %	3.4 %	3.4 %	1.7 %	1.7 %

Affiliate Program Advantages

FOR PROMOTERS

5 Level Affiliate Program

You earn commission not just from people you refer directly, but also from the extended network that grows from your referrals.

Lifetime Recurring Commission

HYDT Protocol's Staking feature requires users to Restake HYDT Stablecoin constantly to keep earning high APY, as it pays out Principal and Yield together. Promoter earns 12%+ from Referral's Staking amount per year if referrals Restake payouts every month.

Additional \$HYGT Reward

Beside percentage of the referral's Staking amount, Promoter earns Protocol's Governance token \$HYGT as additional reward which boost earning as HYDT Protocol grows and \$HYGT Price goes up.

Long Term Sustainability

HYDT Protocol's HYDT Stablecoin is backed by BNB collateral which is used to stabilize HYDT Price in case of depeg event. HYDT Protocol is built to survive Crypto's volatile market in long term.

FOR HYDT STAKING USERS

High Yield Stablecoin Staking

HYDT Protocol offers fixed 30% Stablecoin APY even without additional yield from Governance token reward.

Long Term Stability

HYDT Protocol's HYDT Stablecoin is backed by BNB collateral which is used to stabilize HYDT Price in case of depeg event. HYDT Protocol is built to survive Crypto's volatile market in long term.

Additional \$HYGT Reward

HYDT Stablecoin Staking user also receive \$HYGT governance token as additional reward, makes the Project much more attractive than other Stablecoin Yield Project.

Power of Compounds

Unlike other Stablecoin Staking/Lending Projects, HYDT Protocol pays out principal and yield at the same time, allowing users to earn much more than one-time staking by constantly restaking profit.

HYDT Protocol vs Other DeFi Affiliate Program

Multi-Level High Commission Rate

HYDT Protocol offers one of highest affiliate commission rate across entire DeFi industry, and you also earn commissions from indirect referrals, up to 5 level deep.

Permanent Commission Generation

Once you refer users to HYDT Protocol, they will continue to generate Affiliate commission under you as Protocol require users to Restake earning constantly to keep earning high yield.

Long Term Sustainability

HYDT Protocol offers 30% APY excluding governance token farming reward, and BNB collateral keeps HYDT stablecoin close to 1USD, automatically executed by smart contracts. Stablecoin is not controlled by dev team, eliminating the risk of investment scam.

Real Demand for the Product

Stablecoin Yield which HYDT Protocol offers are one of the most attractive in entire Crypto industry. Everyone want high APY on Stablecoin Staking, you just need to let them know HYDT Protocol's attractive Yield!

Single-Level Low Commission Rate

In Crypto world, Multi-level Affiliate program is still not widely used yet. Even many of Single-level affiliate program used by DeFi Products does not offer attractive commission rate compared to HYDT Protocol.

One-time Commission Generation

Even if you find DeFi Affiliate program with good commission rate, many of them are one-time commission like Token Sales, fails to provide continuous reward to Promoters.

Unsustainable Yield Rate

Many of crypto/DeFi projects claims to offer high return on investment is not able to provide high return continuously due to token Price decline, or scams users by stop paying out returns once run out of money.

Products or Token Sales without demand

Many of crypto projects with affiliate program or token sales commission kickback does not have actual demand from users, and investing into these project is more likely resulting in losing user's invested money.

HYDT Protocol Roadmap

Live	2024 Q1	2024 Q2	2024 Q3	2024 Q4	2025
Security Audit	Affiliate Program Launch	Stable Swap LP Farm	Cross Chain Bridge	HYDT Staking APY boost	Target TVL: \$100 Million
HYDT Staking	HYGT governance token buy-back	HYDT Protocol DAO Launch	Multi currency reserve	HYDT Protocol NFT	Target active wallet: 100,000
HYGT reward Farming	Multi chain Deployment	HYGT Staking			
HYGT Bitmart Listing		HYDT Listing on DeFi Lending
